SECTION 2, SUBJECT INDEX

This subject index follows the format of the National Library of Medicine's *Index Medicus*. Headings have been added.

Entries take this form: volume and number, senior author, first page of article. For example, 30:11 Weiss (1499) refers to the article "Reasons for Abstinence among Moslem, Druze, and Christian Adolescents in Israel," by S. Weiss, found in issue 11 of this volume beginning on page 1499. From this section of the index, reference can be made to Section 1 for the full title and authors of a particular article.

All original contributions to *The International Journal of the Addictions*, volume 30, are included.
